

## **Spring Nature Fortune Teller**

Write numbers 1-4 on the white squares, and numbers 1-8 on the empty triangles. Cut out the square. After cutting, flip over with blank side up. Fold each corner into the center. Keep folded and flip again. Fold each corner to the center. Now put thumbs and index fingers under flaps to maneuver the fortune teller. Play with a partner. Partner picks number 1-4. Move the fortune teller back and forth the number of times picked by partner. Then partner picks a number from inside the fortune teller. Lift that number flap to tell your partner's fortune!
